SYSTEM 7™

CATCHING HELMETS

TREVOR BROWN
SAN FRANCISCO

Choose the best from the company that started it all! System Seven™ catching helmets are the top offering from All-Star, creators of the hockey style helmet, and include all of the top features available on the market. These helmets are built for comfort, performance, and safety and are a great choice for the serious travel ball player up through top level pros.

System Seven catching helmets feature a fast-drying removable liner, I-BAR VISION cages which are strategically mounted for maximum impact dispersion, secure mounting of the back plate straps so they won't pop off, and a perfectly balanced shell that feels light and comfortable on your head.

We test all System Seven catching helmets well beyond the required standards to bring the highest possible level of protection to players and many professional catchers continue to choose System Seven helmets for their safety and to keep them in the game.

MVP4000

The MVP4000 has all the same features as the MVP2500, but uses a polycarbonate shell and additional vinyl nitrile padding in critical areas to absorb bigger impacts. We test the MVP4000 up to and beyond 100mph for maximum safety and this mask is chosen by more Major League catchers than any other hockey-style helmet.

MVP2500

Designed for the serious high school player up through the pros, the MVP2500 features a fast-drying, removable, and washable liner, an I-BAR VISION steel cage, a high impact resistance ABS plastic shell, and a backplate with strap retention bridges to keep them secure. All MVP helmets are designed for maximum safety and tested well beyond the required standards.

ADULT SYSTEM7 AXIS™

When constantly improving and developing the best equipment, feedback is critical. Working with the best athletes of all ages the feedback we receive leads to many of the improvements in our line.

With SYSTEM7 AXIS™, it's all about the details. The little things. How can we make the equipment lighter, more protective, maneuverable, durable, & comfortable.

Some of the biggest upgrades include Diamond Port Ventilation, thinner and more form fitting Delta Flex harnesses, and more aggressive break-points for improved fit and better blocking.

With the SYSTEM7 AXIS™ leg guards, All-Star is the first in the industry with LINQ™, a pivoting hinge which allows the leg guard to completely move with the player. Not only does the LINQ™ system better conform with how legs move but it also eliminates straps that cross behind the back of the knee crease.

ONLINE REVIEWS:

This glove is a nice combination of easy to break in and stiff leather. It took me around two weeks to break in to be game ready. I recommend not putting any glove oil or anyone's type of material on this glove. Breaking it in without the oil makes the leather on any glove last longer.

Very nice glove, and leather. Well worth the money. Will take a little time to break in again thats because of the nice leather.

This glove looks better in person than in pictures. It comes in absolutely rock hard meaning that in the factory they did little to no breaking in of the glove. This is something I personally liked. The glove lives up to its description, the pocket is DEEP and very easy to hide the ball in. The PGP is an added bonus as well.

ONLINE REVIEWS:

Good padding. High quality glove. Leather is very high quality. I would say that this glove is about the quality level of the pro issued Pro Preferred at half the cost. Very good buy.

love this glove so much, dont drop 330 on a rawlings buy this, this is the future of baseball gloves it will be a house hold name in the coming years, imagine being apart of the first wave and generations of all-stars gloves.

Great leather. Looks great. Soft laces. Everything is incredible with this glove. I'm so glad I got this! Just as good if not better than the A2K or the Pro Preferred, but for half the price. This is the best glove I've ever had by far!

Glove is awesome! Love the feeling of catching a ball with it! Didnt take me long to break it in! All star is the gloves to get before everyone else does and cause them to raise the prices!

Worth the price. The black leather on this glove feels most similar to the oily feel of the Rawlings Heart Of The Hide while the tan leather is more of a buttery feel like the Wilson A2000. This glove comes very stiff but breaks in fast.

It's an amazing glove! Great leather it will last you awhile if you take care of it!

NEW **THE FOCUS FRAMER**

STYLE NO.	GLOVE HAND	SIZE
CM150TM	LEFT	27 INCHES

The Focus Framer is all about velocity. This mitt works similar skill sets as The Pocket, but is intended for faster ball speeds. It's undersized build combined with the faster velocity require some sharp focus.

THE POCKET

STYLE NO.	GLOVE HAND	SIZE
CM100TM	LEFT	27 INCHES

A favorite of many coaches and athletes, this tiny 27 inch mitt offers very little other than a pocket and a guaranteed way to increase your catching skills. Great for developing fast hands, catching in the correct location, blocking, and improving ball transfer speeds.

THE EQUALIZER

STYLE NO.	GLOVE HAND	SIZE
CM3000TM	LEFT	35 INCH

A full 35 inch professional grade mitt without a web! This training mitt is designed to force catchers to catch in the pocket and not the web. Unlike the other training gloves, this mitt can be used to catch live bull pens.

THE PICK

STYLE NO.	GLOVE HAND	SIZE
FG100TM	LEFT	9.5 INCHES
FG100TM-FR	RIGHT	9.5 INCHES

Modeled after the CM100TM, the FG100TM fielder's training glove is an undersized 9.5 inch glove designed to help develop fast hands and improve coordination for fielders. Mitt was designed and developed after feedback received from catchers that their fielding teammates were stealing their CM100TMs!

THE DONUT

STYLE NO.	GLOVE HAND	SIZE
CM1000TM	LEFT	35 INCH

The absolute best mitt for working on quick transfer speeds. This vintage style catching mitt modernized with the All-Star® black/tan leather is a tool recommended by catchers, coaches, and teams for developing the fastest transfer speeds. When received into the pocket correctly, high speed balls can be caught when transferred to throwing hand.

Perfect for working on general receiving skills too. Balls which hit the pocket drop straight to the floor while balls missed rebound away.

VELA™

SOFTBALL GLOVES

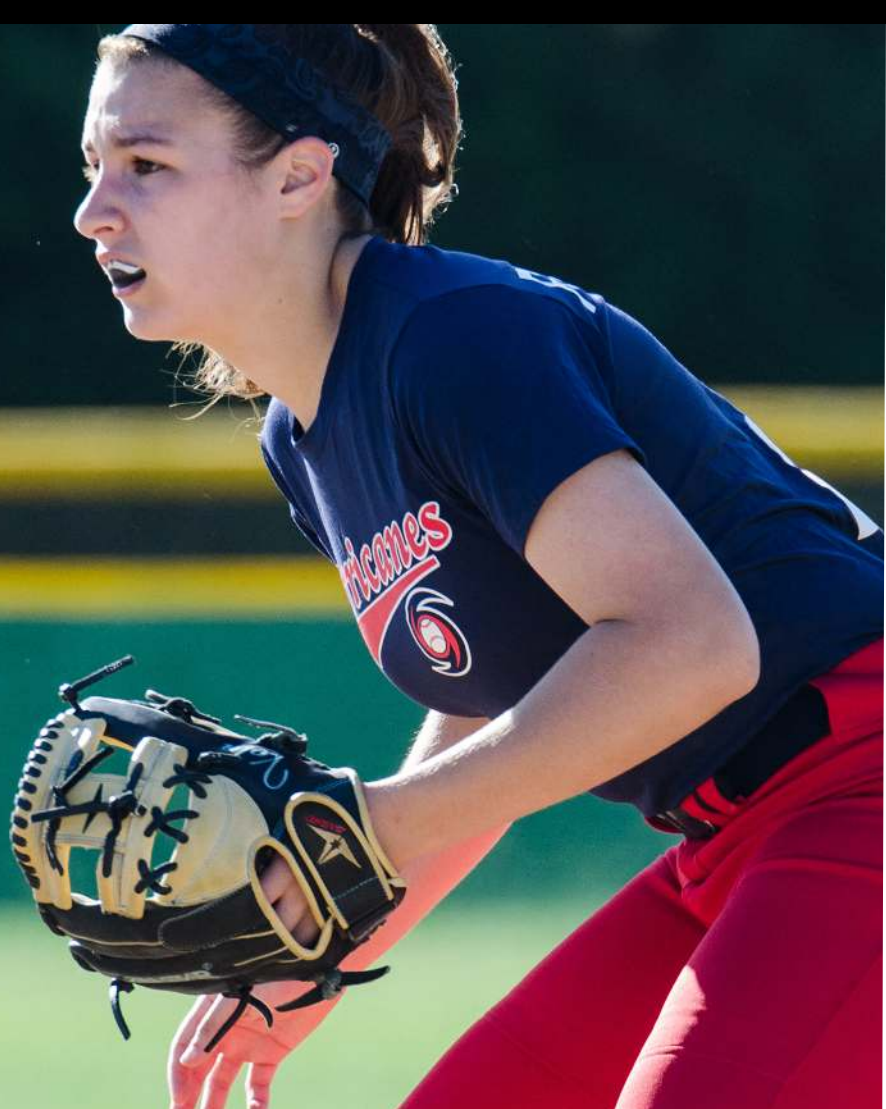

3 FINGER FIELDING GLOVES

In softball and baseball, it's common for a player to position the hand inside a glove with two fingers in the glove's pinky. This is done for numerous reasons including making a deeper pocket, to make the glove feel 'longer', or to help avoid the index finger sting from a caught ball. *This grip style on a conventional glove leaves the Index finger empty.*

With so many players shifting their fingers over, leaving the index finger completely empty, All-Star® designed the Vela™ THREE FIN-G3R™ glove line around this concept.

Because of the glove's design, players will not notice that there are only three fingers. What will be noticeable is the huge pocket, increased fielding area, and comfort.

VELA™ INFIELD I-WEB

STYLE NO.	GLOVE HAND	SIZE
FGSBV-11.5	LEFT	11.5"
FGSBV-11.5FR	RIGHT	11.5"

Despite the glove's smaller 11.5" size, this glove provides a huge fielding area because of the 3 FING3R™ design. The glove's I-Web design allows for a deep and secure pocket... or a player can pull the rawhide tight for a more shallow feel.

VELA™ UTILITY BASKET WEB

STYLE NO.	GLOVE HAND	SIZE
FGSBV-12	LEFT	12"
FGSBV-12FR	RIGHT	12"

The 12 inch Vela™ 3 FING3R™ is a great all position glove that looks and performs amazing. Because of the 3 FING3R™ design, this glove boasts a massive fielding area yet remains comfortable on all hand sizes.

VELA™ OUTFIELD H-WEB

STYLE NO.	GLOVE HAND	SIZE
FGSBV-12.5	LEFT	12.5"
FGSBV-12.5FR	RIGHT	12.5"

The 12.5" H-Web model is a great fit for outfielders who are looking for a larger glove. The web design is great for trapping and securing the ball. The 3 FING3R™ design allows for a much larger pocket.

VELA™ PRO SINGLE HINGE MITT

STYLE NO.	GLOVE HAND	SIZE
CMW3000	LEFT	33.5"
CMW3000FR	RIGHT	33.5"

This glove is recommended for elite travel ball through college/pro level play. Designed with high grade Maruhashi leather, this glove will be a bit stiff out of the box, but will break in fast and last for seasons.

The single hinge design allows for more control and helps keep your thumb more protected than traditional double-hinge designs.

YOUTH FASTPITCH SERIES

STYLE NO.	GLOVE HAND	SIZE
CMW1010BT	LEFT	31.5"
CMW1010BT-FR	RIGHT	31.5"

This girls' designed fastpitch / softball mitt was specifically designed for younger and smaller hands. Although it's smaller, it doesn't skip any quality as it offers many comparable features. Double heel break, Velcro closure, and black and tan leather construction.

ADULT S7™ TWO-PIECE

STYLE NO.	GLOVE HAND	SIZE
CMW2510	LEFT	33.5"
CMW2510FR	RIGHT	33.5"

Designed for intermediate fastpitch players, this mitt features our famous black and tan leather construction with soft leather on the inside and with stiffer black leather backing for support. The CMW2510 has a double heel break to trap balls once caught. Available in a 33.5 inch pattern only.

VELA™ DUAL-PRO MITT

STYLE NO.	GLOVE HAND	SIZE
CMW4000	LEFT	33.5"
CMW4000FR	RIGHT	33.5"

This glove is recommended for the elite fastpitch catcher looking for a classic pattern with fast break in and durability. The Velcro closure on the back allows for a custom and secure fit.

SYSTEM 7™

This mask feels weightless, weighing in at a mere 12 oz. Held on with the pony tail ready DeltaFlex™ harness and chin cup. It does not shift or move while running, but is easy to talk through.

MVP HELMET & TRADITIONAL MASK SIZING:

For the most accurate sizing, it is recommended to use the players hat size, found by measuring the circumference of the player's head, and then using the chart to the right to figure out recommended model / size.

CHEST PROTECTOR SIZING + FITTING:

All-Star® chest protectors are measured from the top of the sternum to a players naval.

Depending on chest protector model, All-Star® chest protectors are available in 9, 13, 14.5, 15.5, and 16.5 inch lengths. If the player measures in between chest protector lengths it is recommended to select the longer length.

The chest protector should fit high, with the throat guard over the base of the neck.

Because the DeltaFlex™ harness is adjustable in 4 different locations you can dial in a fit that is perfect for you.

LEG GUARD SIZING + FITTING:

Best done while seated, measure from center of player's knee cap to the top of the players cleats.

Depending on leg guard model, All-Star® leg guards are available in 10.5, 11.5, 12.5, 13, 14.5, 15.5, and 16.5 inch lengths. If the player measures in between leg guard lengths it is recommended to select the longer length.

Remember, on our Pro Series and System Seven™ leg guards, please adjust both sides of the DeltaFlex™ harness for the best fit. DeltaFlex™ harness should cradle the back of the calf muscle, lining up centered down the back of the calf.
